At school we often used a very simple cipher (secret writing). We wrote ordinal numbers, one after the other, in our messages. The ordinary number meant the position of a letter in the alphabet. Here you'll find two of my favourite proverbs which I recall when I feel upset. To make your task easier, here is the alphabet.

Write the ordinal numbers before the letters.

1 st A	_____ E	_____ I	_____ M	_____ Q	_____ U	_____ Y
2 nd B	_____ F	_____ J	_____ N	_____ R	_____ V	_____ Z
3 rd C	_____ G	_____ K	_____ O	_____ S	_____ W	
4 th D	_____ H	_____ L	_____ P	_____ T	_____ X	

(B) Eighth first sixteenth sixteenth ninth fourteenth fifth nineteenth nineteenth
fourth fifth sixteenth fifth fourteenth fourth nineteenth
fifteenth fourteenth fifteenth twenty-first eighteenth nineteenth fifth twelfth twenty-second fifth
nineteenth. (First eighteenth ninth nineteenth twentieth fifteenth twentieth twelfth fifth)

2. feladat Párosítsd a táblákat a jelentésükkel!

How to cross the road.

Think over the rules of crossing the road, read the five statements below and write them in the correct order.

Always use a zebra crossing.

Stop at the edge of the pavement.

Look to your left and then to your right.

Walk straight if the road is clear.

Do not cross too close to parked vehicles.

- 1 _____
- 2 _____
- 3 _____

When you want to find a book in a library, use the catalogue. There you find the books in alphabetical order. Let's see how good you are at alphabetical orders. Would you be a good librarian?

(A) Here you find some names of the authors of the books. Put these names in order.

If you have lots of books, it is easier to find one if they are in alphabetical order on the shelves. (The first name is Lewis Carroll because you have to put the family or last name in order.)

Alexander Milne
Joanne Rowling
Charles Dickens

~~Lewis Carroll~~
Rudyard Kipling
Jack London

Daniel Defoe
Felix Salten

Jonathan Swift
Dodie Smith

1 *Lewis Carroll*

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

(B) Now here is a list of books. Put these titles in alphabetical order.

When you order the titles omit **the** or **a**, start with the first noun, e.g.: "The Jungle Book" comes well before "A Tale of Two Cities". If a title begins with a number, it comes before the letters in alphabetical order. In this list the first title will be *101 Dalmatians*.

Winnie-the-Pooh
The Jungle Book
Harry Potter

Alice in Wonderland
Bambi
The Call of the Wild

Robinson Crusoe
~~101 Dalmatians~~

Gulliver's Travels
A Tale of Two Cities

1 *101 Dalmatians*

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

(C) Now match the names from exercise (A) with the books in exercise (B).
